Vice President & Chairman

Ref. No. DYPCOE / mech / 2026 / 283 Date :- 21/10/2026

To the Admissions Committee,

I am pleased to recommend Mr. Preet Sambare, whom I taught the **"Design of Transmission System"** course at D.Y. Patil College of Engineering, Pune. During his time under my guidance, Preet demonstrated a strong grasp of mechanical engineering principles, a willingness to take responsibility, and the ability to communicate technical concepts effectively.

Preet assisted me in delivering lectures on topics within the course, particularly "***Unit 3: Sliding and Rolling Contact bearing***". His involvement included explaining bearing selection, equivalent dynamic load calculations, bearing-life estimation, and load-capacity evaluation based on machine design principles to a class of more than 60 students. His ability to present technical concepts clearly and systematically reflected his subject understanding and confidence in engaging with academic material.

In addition to his teaching contribution, Preet assisted with academic term-work coordination and the maintenance of students' academic records for his batch throughout the semester. He approached these responsibilities with diligence, organization, and reliability, demonstrating that he could balance technical responsibilities with administrative commitments.

Preet's technical aptitude, initiative, communication skills, and sense of responsibility make him a promising candidate for advanced studies in Mechanical Engineering. I believe he possesses the discipline and willingness to learn required to contribute positively to a graduate-level academic environment.

I recommend Preet for admission to your graduate program and am confident that his technical aptitude, initiative, and sense of responsibility will serve him well in advanced studies and assistantship roles.

Sincerely,

Dr. D.Y. Patil Pratishthan's ★ D.Y. Patil College of Engineering ★ Sec. No. 29, Nigdi Pradhikaran, Akurdi, Pune 411044 An Autonomous Institute
