"41" Year of Excellence in Engineering Education"

Dr. D. Y. Patil — Founder President
Dr. Sanjay D. Patil — President
Shri. Satej D. Patil — Vice President & Chairman

Ref. No. DYPCOE / mech/2026/2830 Date :- 21/10/2026.

To the Admissions Committee,

I am pleased to recommend Mr. Preet Sambare for admission to your Master's program. As the Faculty Coordinator of Udbhav, The Official Anchoring Club at D. Y. Patil College of Engineering, Akurdi, Pune, I have been a mentor to Preet since his first year and observed his leadership, communication skills, and sense of responsibility. In his role as Founder and President, he made a valuable contribution to developing a more organized approach to anchoring and coordinating college events.

Before Udbhav was established, Preet was part of the student team that handled anchoring responsibilities for individual events. Establishing a formal club provided an opportunity to bring greater continuity to this work, define responsibilities, and create a platform for developing students' anchoring skills. He helped translate this opportunity into practice by organizing the club's activities and developing its working processes.

What distinguished Preet was his willingness to take responsibility beyond his own performance on stage. His responsibilities included leading the club's activities, coordinating events, and mentoring team members. He assigned responsibilities, organized anchoring workshops, and coordinated closely with sponsors, invited guests, event organizers, student teams, and faculty members to ensure that events ran smoothly. He communicated requirements clearly and aligned the efforts of different teams, demonstrating professionalism, interpersonal skills, and the ability to manage diverse responsibilities with accountability. He understood that effective anchoring depended on preparation and cooperation across the entire team.

He has represented Udbhav as an anchor at events both on campus and at external venues, including events hosted at organizations such as Infosys. During his 2025–2026 tenure, he hosted more than 22 events in eight months. Alongside his mechanical engineering studies, he has anchored numerous technology-focused events for Google Developers Group Pune, OpenAI (Codex) and API Community India. Preet played an important role in coordinating this work and following up on the team's commitments. From a faculty coordinator's perspective, I valued his readiness to remain accountable for the responsibilities entrusted to him and to keep me informed when guidance or decisions were needed.

These experiences revealed qualities that will serve Preet well in graduate study: initiative, accountability, adaptability, and the ability to work effectively with people. He approaches collective responsibilities with care and understands the importance of preparation and follow-through. Based on my experience, I confidently recommend Mr. Preet Sambare for admission to your program.

Sincerely,

Dr. Bhagyashree Tingare
Faculty Coordinator, Udbhav
